# Point to Ponder: E-Statements

Why do paper statements feel so secure when they could be stolen and need to be shredded while e-statements can be easily accessed, viewed as needed, and never printed in the first place?

Maybe it is still a new idea for you, but getting your statement electronically not only saves paper and ink, helping us keep costs down, but also it is more secure. There is nothing to shred, you will have the information you need quickly, and you will not pile up years and years of old statements with your account numbers on them.

*Take the step of switching to secure e-statements today.*

*Contact us at 605.394.1772 to learn how!*

**Go Green!**
